PROFESSIONAL SUMMARY

Full Stack Developer and Software Engineering student with experience building web applications, REST APIs, relational databases, and cloud deployments. Skilled in Java, Spring Boot, JavaScript, TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL, and Oracle Database. Experienced in role-based access, auditing, reporting, notifications, external integrations, and agile delivery.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, C#, HTML5, CSS3, SQL, PL/SQL

Frontend: React, Next.js, Redux Toolkit, Tailwind CSS, responsive design

Backend: Spring Boot, NestJS, Node.js, Express, REST APIs

Databases and data: PostgreSQL, MySQL, Oracle Database, Redis/Valkey, Prisma, Sequelize

Cloud and tools: Vercel, DigitalOcean, Oracle Cloud Infrastructure, Git, GitHub, Cloudinary, Brevo, Scrum, SDLC

PROFESSIONAL EXPERIENCE

Full Stack Developer | Prama

Feb. 2023 - Apr. 2023

Developed features for a road safety web application that collected user information and generated downloadable PDF reports.

Contributed across the software development life cycle, focusing on clean, maintainable, and reliable code.

Full Stack Developer - Bootcamp Projects | SoyHenry

Sep. 2022 - Jan. 2023

Built a marketplace with user and company roles, search, filters, sorting, product creation, and product management.

Developed the frontend with Next.js, Redux Toolkit, and Tailwind CSS, integrating PostgreSQL through Prisma.

Built a Pokémon application with search, filters, sorting, and custom records using React, Redux, Node.js, Express, PostgreSQL, and Sequelize.

SELECTED PROJECTS

Academic Platform | Community Service Project - Liceo de

2026 - Present

Alajuelita

Developing an academic platform that centralizes communication and information management for a school of about 1,500 students; currently in deployment.

Implemented role-based access for administrators, teachers, and students, plus management of users, class groups, subjects, schedules, tasks, attachments, news, events, and notifications.

Added annual student promotion, filters, audit logs, administrator email 2FA, JWT security, httpOnly cookies, and refresh-token rotation.

Architecture: Next.js on Vercel; NestJS, PostgreSQL, Prisma, and Redis/Valkey on DigitalOcean; Brevo and DigitalOcean Spaces.

Adopciones Kalö | Team Project

2026

Coordinated the project and helped define a platform for adoptions, donations, volunteers, campaigns, inventory, expenses, follow-up, reports, auditing, and permissions.

Worked on a React 19 and Redux Toolkit portal with an Express 5 REST API and Oracle Database on Oracle Cloud Infrastructure.

Helped design SQL and PL/SQL procedures, packages, functions, triggers, views, indexes, constraints, and seed data.

The team integrated Cloudinary, PayPal, Nodemailer, and PDF receipt and report generation.c

EDUCATION

Bachelor's Degree in Software Engineering (in progress) | Universidad Fidélitas

2022 – Present (End of the First Quarter of 2027)

Full Stack Web Developer | Henry Bootcamp

2020

JavaScript Algorithms and Data Structures | freeCodeCamp

2022

Responsive Web Design | freeCodeCamp

2022

Training in Java, Spring Boot, SQL, and Artificial Intelligence | Alura

2024

CERTIFICATIONS AND DIGITAL BADGES

Scrum Fundamentals Certified - SCRUMstudy (2025) | Agile Foundations - LinkedIn Learning (2024) | Introduction to SQL with MySQL - Alura (2024)

Object-Oriented Programming in Java; Java OOP - ONE G7; Java Web with Spring Boot; Java and Spring Boot; Java & Spring Framework; Artificial Intelligence & Java - Alura (2024)

GitHub Foundations | CCNA: Introduction to Networks | Introduction to Cybersecurity | Introduction to IoT - Credly

LANGUAGES

Spanish: Native | English: B2 Intermediate
